

## ABOUT ME

I am developer with over 4 years experience and a bachelor's degree in Software Engineering. I have a passion for code quality and a positive team oriented attitude. I have experience with UI design, code refactoring, peer code reviews and web server configuration. I hope to find a job where I can use my knowledge of programming best practices while flexing my creative problem solving skills.

## SKILLS

Javascript: 95%

CSS/HTML5: 85%

Ruby on Rails: 75%

Python: 60%

Scrum/Agile Development: 76%

Git: 90%

## WORK EXPERIENCE

## Fluid Media - Full Stack Developer

2017 - present

- 1 Created complex web apps using **Javascript ES2018** and **HTML 5**.
- 2 Wrote Javascript web components using **Vue.js** and learned to manage application state using **VueX**
- 3 Created and maintained code for server side technologies such as **MySQL**, **Ruby on Rails** and **Node.js**.
- 4 Refactored code for maintainability and worked to ensure the code base adhered to **SOLID** principles.
- 5 Mastered version control using **Git**.
- 6 Learned to deploy web apps using **AWS** and **Capistrano**.

## Mohawk College - Quality Assurance Developer

2016 - 2017
